## OVERVIEW

In children's ministry, we all love when things are planned out and organized! But let's be honest. It can be a challenge to set aside the time we need to actually get organized. So how about we try something different this year? **How about we start planning our ministries an entire year at a time?** It only takes one day each year, and it's going to make the other 364 days of your year so much more fun, peaceful, and effective. And it's actually really doable with the Grow annual strategy!

## OVERVIEW

When planning your year, we always recommend you start with your discipleship strategy. That's because **spiritual growth should be the lens through which we see everything else we do in our ministries**. We believe there are four spiritual habits that help kids (and adults, too) grow closer to God. These four habits aren't anything new. They've been talked about countless ways, by countless numbers of people. Your church is probably already talking about them in your own unique way, so feel free to change the language to fit your context if you need to. The words aren't important, but here's what is: if these four spiritual habits are the behaviors that help kids grow closer to God, **we need a strategy to help kids engage in these four spiritual habits on a regular basis, year after year**.

### **SPEND TIME WITH GOD**

If we want to grow spiritually, we need to spend time growing in relationship with God through personal times of prayer, reading Scripture, reflection, and worship.

### **USE YOUR GIFTS**

If we want to grow spiritually, we need to understand how God uniquely made us and then use those unique qualities to love God, love others, and impact the world around us.

### **SPEND TIME WITH OTHERS**

If we want to grow spiritually, we need to be engaged in healthy community and godly relationships with others — with people who share our beliefs, as well as with people who don't.

### **SHARE YOUR STORY**

If we want to grow spiritually, we need to make faith a regular, everyday, go-to topic of conversation as we learn to connect our stories with God's story and then share our stories with others.

## WHAT WE'VE INCLUDED

Since there are four spiritual habits we've identified as key to a kid's spiritual growth, **Grow Kids breaks the year into four quarters and focuses on one spiritual habit each quarter**. Each quarter, we provide you with one discipleship activity for that quarter's habit. While every activity we provide in our Discipleship Strategy is unique, every quarter of resources includes resources like . . .

### **GRAPHICS**

## THIS YEAR IN GROW

Although we always focus on each spiritual habit at the same time every year, **how we practice these spiritual habits changes every year**. This year, here's what you'll get with Grow Kids . . .

### FALL

Because we always focus on the spiritual habit of **spending time with others** during the fall quarter, this year we've created **The Get-To-Know-You Card Game** to give kids a chance to have fun playing a game while learning more about each other and sharing a little about themselves.

### WINTER

To focus on the spiritual habit of **using your gifts** during the winter quarter, this year we're recommending an event called **The What Can I Do Challenge** to prompt kids to think outside the box and find ways they can practice generosity in their community.

### SPRING

For the spring quarter, when we always focus on the spiritual habit of **spending time with God**, we've created a discipleship activity called **The Bible Buddy Reading Plan** to help kids find the coziest way to spend time with God on a daily basis.

### SUMMER

With a focus on the spiritual habit of **sharing your story** during the summer quarter, this year, we're providing an activity called **The Show Your Story Challenge** to help kids use their creativity to display their stories and talk about what God has done in their lives.

## OVERVIEW

---

It's so important to have a strategy for what you'll teach kids. Without a strategy, we run the risk of missing important ideas, teaching only the topics that interest us most, and ultimately failing to give our kids a full and holistic view of God. The teaching strategy behind Grow Kids has been created, influenced, and written by hundreds (literally) of real children's pastors, in real kids ministries, from a diversity of church contexts, cultures, sizes, and denominations. Our goal is to help you help kids grow spiritually by **teaching and discussing Scripture in developmentally appropriate ways**.

---

### OUR AUDIENCE

Grow Kids is **designed with preschoolers through preteens in mind**, since we know most children's workers oversee preschool, elementary, and sometimes even preteens.

But we also know the age groups within that range are all really different! So here's how we balance that: **every month comes with a separate (but aligned) preschool and elementary series**. This means both your preschoolers and elementary-aged kids will be hearing the same Bible stories and Big Ideas at the same time, but in developmentally appropriate ways.

It also means **every series comes with Toddler Hacks and Preteen Hacks**. These tips are specific to each series and are designed to help you adjust the teaching to be more age-specific. We also know when you are ministering to kids with disabilities, it's important to adjust your teaching strategy in more specific ways. That's why **every series comes with Accessibility Hacks** to help you adjust the teaching and activities to make them more accessible to kids with physical, developmental, or learning disabilities.

### OUR STRUCTURE

Maybe you're wondering, "Is Grow Kids designed for small groups? Large groups? Classrooms? Small churches? Big churches?" The answer is this: Grow really is flexible enough to use in all of those contexts and formats!

**If your large group teaching and small group discussion happen together**, our **Teaching Guide** combines the large group teaching and discussion time all in one place. **If your large group teaching and small group discussion happen separately**, we provide simple one-page **Discussion Guides** for each week so your small group leaders can easily lead those conversations after your large group teaching time.

### OUR SCOPE & SEQUENCE

The Grow Kids scope and sequence will take kids through every major Bible story in three years. At the end of three years, we'll start over! We spend an equal amount of time in the Old and New Testaments. For a detailed look at our three-year plan, check out our [Scope & Sequence](#).

Plus, if your church uses a lectionary to help guide the Scripture you study each week, **every week of Grow Kids uses at least one passage of Scripture from The Revised Common Lectionary**. Our curriculum for teenagers does too, so if your church uses Grow Kids your kids and youth ministries can get more aligned!

## OVERVIEW

The things you teach each week are really important — but we all know the experience that surrounds your teaching time can often make or break the effectiveness of what you teach. On top of your weekly teaching time, there's a lot that goes into your weekly environment. Between the decor, graphics, music, games — there's a lot to do. But here's a strategic and easy way to think about weekly environments: **determine a monthly theme that complements your teaching**. Then create an environment around it! We like to think of weekly environments like this: games, music, room design, and visual aids (like graphics and videos).

## WHAT WE'VE PROVIDED

## OVERVIEW

Events are a pretty big deal for most children's ministries. They're a way to have fun, connect with families, get new people in the door, and create some excitement. Events matter, but we've got to keep things in perspective. That's why we're fans of keeping your event strategy really simple, because you can make a bigger impact each year if you choose to do fewer events with more intentionality. Here's our recommendation: **do one event each quarter, plus a VBS (Vacation Bible School) over the summer.** Here's what that looks like each year . . .

### FALL

Every fall, we recommend doing an event that aligns with the fall discipleship focus (Spend Time with Others) by helping kids connect with each other, their families, and their adult leaders. In Grow Kids, this is usually a **just-for-fun event**.

### WINTER

Every winter, we recommend doing another fun event that gets kids and families together before the busyness of the holidays really kicks in. In Grow Kids, this is usually a **Christmas-themed event**.

### SPRING

Every spring, we recommend doing an event that aligns with the spring discipleship focus (Spend Time with God) by giving kids and families an opportunity to engage with and learn more about Jesus. In Grow Kids, this is usually an **Easter-themed event**.

### SUMMER

Every summer, we recommend planning a family fun event that gets kids and families together before the busyness of the summer begins, followed by a VBS-style event. In Grow Kids, this is usually a **just-for-fun event**, followed by a **week-long VBS for the community**.

## WHAT WE'VE INCLUDED

While every event in our Event Strategy is unique, we always provide you with the same core tools and resources to make each one happen. With each event, we'll include . . .

This year's fall event, **Let's Kick It**, is made up of a variety of games, stations, competitions, and challenges all designed for kids to put their best foot forward while winning points for their teams.

### WINTER

This year, our winter event is the **Super Cool Pool Party** and it will blend the fun of a summertime pool party with the joy of Christmas to create the ultimate just-for-fun event.

### SPRING

Our spring event, called **Crazy Craft Day**, is a hands-on event for kids to work together with trusted adults to create unique and memorable Easter-themed works of art.

### SUMMER

This summer, kids will compete in a variety of Olympic-themed competitions in this **Go For The Gold** event to win prizes and try new things together with their friends.

OVERVIEW

If we want to be effective as children's ministry leaders, we need to get really serious about investing in and empowering the volunteers we lead. When we do that, we multiply our influence, increase the capacity of our ministry, and give kids a better shot at building a lifelong faith. Research shows that young people need not just one children's pastor, but a community of adults who are all investing in them and in their faith. So, if you want volunteers to invest in kids, **it's probably a good idea for you to invest in your volunteers first.** With this annual Volunteer Strategy, you'll learn a system for investing in your volunteers in seven different ways throughout the year.
